

Fabcon wins Barclays Entrepreneurs Awards gong

13 December 2018 - online

Fabcon Food Systems has won the regional International Expansion of the Year category at the Barclays Entrepreneurs Awards.

The annual Barclays Entrepreneurs Awards celebrate entrepreneurs for their innovation, for creating social change and growth that moves the UK forward.

The food process equipment manufacturer, set up in 2015, has been recognised for its growth across several international markets.

Fabcon supplies and installs its handling and processing equipment to customers in the UK, as well Europe, the Middle East, Africa and Australia.

The firm recently installed equipment in Norway and Romania, with a further order for a pellet frying line in the Middle East.

Trevor Howard, managing director of Fabcon Food Systems, said the company is working with a growing number of snack manufacturers.

“Sales abroad now account for around 50% of our revenue and we know that customers really value quality, innovative, British-built machinery. In our short history we’ve created a brand which is recognised across the globe but more importantly, we’re being held up by snack manufacturers as a trusted partner who they immediately turn to.”
