

FABCON COMPLETES BELGIAN ORDER

20 Apr 2020 Central and East Manufacturing

Food processing equipment maker Fabcon Food Systems has supplied machinery to a European manufacturer.

The company has installed a seasoning and distribution line for Belgian company Nutradia at its plant in Andenne.

Trevor Howard, managing director of Fabcon Food Systems, said: "Nutradia is a hugely prestigious health snack maker who want to improve the performance, flexibility and efficiency of its seasoning and packing operation.

"Working closely with their team to a tight timescale, we designed and installed a modular supply system to help them achieve that vision.

"Overall, it is another great milestone for us to work closely with such a respected manufacturer. It also shows that British-built machinery continues to be in high demand."
