

## Fabcon supplies seasoning line for Nutradia in Belgium

Fabcon Food Systems has supplied bespoke machinery for a European health snack producer Nutradia in a six-figure deal.

By Waqas Qureshi 21 April 2020

The installation is for a seasoning and distribution line for Belgian firm Nutradia at the company's manufacturing plant in Andenne.

The production line includes Fabcon's modular horizontal motion and vibratory conveyors which can be

extended to support further packaging stations at the central Belgium factory.

Trevor Howard, managing director of Fabcon Food Systems, said Nutradia wanted to improve the performance, flexibility and efficiency of its seasoning and packing operation.

“Working closely with their team to a tight timescale, we designed and installed a modular supply system to help them achieve that vision.”

Avi Leshem, managing director of Nutradia added: “Our snacks products can be extremely fragile and therefore we needed a machinery specialist who understood that and could also deliver an affordable bespoke system.”
